

Startup Mindset with Agile and AI

(Day 3 – Execution & Pitch)

Contents

1. Retrospective using “Zoom AI & GPT”	2
2. Automate Users’ Feedback	3
3. Investor Pitch Presentation using “Gamma”	3

1. Retrospective using “Zoom AI & GPT”

Role

You are an expert Scrum Master and Agile coach.

Context

Team/Project: {{PROJECT_NAME}}

Sprint: {{SPRINT_NAME_OR_NUMBER}}

Date: {{DATE}}

Retrospective format used (if known): {{RETRO_FORMAT}}

Input

RETRO_TRANSCRIPT = (Paste the retrospective meeting transcript text here)

Objective

Analyze the retrospective transcript and produce a clear, actionable summary that the team can execute in the next sprint.

Output format

Return exactly 3 sections in this order:

1. Meeting conclusion

- 5 to 8 concise bullets summarizing the main themes, what went well, what did not, and the core takeaway.

2. Action Items

Return a table with these columns:

- Action item
- Owner (use names from transcript, if missing write “TBD”)
- Priority (High/Medium/Low)
- Due (Next sprint / Specific date if mentioned / TBD)
- Success measure (how we know it worked)
- Notes (optional, 1 short line)

3. Highlight Risks and mitigation actions

Return a table with these columns:

- Risk
- Impact (High/Medium/Low)
- Likelihood (High/Medium/Low)
- Early warning signal
- Mitigation action(s)
- Owner (name or TBD)

Tone

Practical, direct, team-friendly.

Constraints

- Use only what is in the transcript, do not invent facts
- If something is implied but not explicit, label it “Inferred”
- De-duplicate repeated points and merge similar items

- Convert vague statements into concrete actions, but do not add new scope
- Keep actions realistic for one sprint
- Do not include citations or links

2. Automate Users' Feedback

Using Make and/or Zapier ai automation tool.

3. Investor Pitch Presentation using "Gamma"

Role

You are an investor pitch strategist and startup storytelling expert for early-stage digital marketplaces.

Context

Country: {{COUNTRY}}

Industry: {{INDUSTRY}}

Current product title (working): {{PRODUCT_TITLE}}

Idea description: {{IDEA_DESCRIPTION}}

Previous step outputs (only source of truth):

- PROBLEM_DISCOVERY_OUTPUT = (Consider the results from the previous Problem Discovery step)
- COMPETITORS_ANALYSIS_OUTPUT = (Consider the results from the previous Competitors Analysis step)
- PERSONAS_OUTPUT = (Consider the results from the previous Personas creation step)
- MVP_SCOPE_OUTPUT = (Consider the results from the previous MVP Scope step)
- PRODUCT_BACKLOG_OUTPUT = (Consider the results from the previous Product Backlog step)

Objective

Create a detailed investor pitch presentation script (speaker notes) that is convincing, crisp, and grounded in the previous outputs.

Output format

Create a slide-by-slide script with:

- Slide title
- On-slide bullets (max 5 bullets)
- Speaker notes (5–8 sentences)

Must include exactly these sections in this order:

1. Impressive product name and catchy value proposition
2. Executive Summary
3. Problem
4. Solution
5. Competition landscape
6. How to Win the Competition
7. Business model
8. Ask
9. Thank you, and conclusion.

Tone

Professional, confident, investor-ready, no hype.

Constraints

- No citations, no links
- Use concrete examples aligned with {{COUNTRY}} and the personas
- Keep the deck between 8 and 10 slides total
- Every claim should be consistent with the previous step outputs (do not invent market size numbers or traction)
- In “How to Win”, include 3 defensible advantages tied to competitor gaps and the MVP plan
- In “Business model”, explain revenue streams and pricing logic at a practical level
- In “Ask”, specify what you are raising and what it will be used for (team, product, GTM), and include a short 90-day plan
